

Please note some changes:

- ◆ By signing you acknowledge that Chesapeake Pools has recommended that your pool have dual drains or a vacuum release system and compliant VGB main drain cover as added safety measures to reduce the risk of suction entrapment. Moreover you expressly hereby forever release and discharge Chesapeake Pools, it's employees, servants, and/or agents from any liability that is related in any way to the dangers of suction entrapment.
- ◆ At time of scheduled opening, if the cover is removed and the pool surface and water are beyond our standard procedures to correct, there will be an added contract amount of \$550.00 for an acid wash (a.k.a. drain and clean). A drain and clean includes pumping out the water entirely and acid washing the sides and bottom of the pool. This is typically done if the algae build up and the debris in the pool is so great that a standard chemical cleaning would not be sufficient.
- ◆ If at time of opening we arrive and your pool is not at operational level (mid-way up the tile line) there will be an additional charge of \$100 for us to return to your residence.
- ◆ Vacuuming of your pool will be performed by our service technicians at the time of opening. However, depending on the condition of the water at the time of opening we can not guarantee that the pool will be "swim ready" upon completion.
- ◆ Since each pool and its components are individual, we can not guarantee a time frame for which the pool will be swim ready. Factors such as initial water quality, filter capacity, pump performance, disinfectant levels, and basic maintenance are all considerations.
- ◆ After the initial opening, adequate filter pressure, basic pump maintenance, and adequate disinfectant levels must be maintained by the homeowner in order to expedite the water clearing process.
- ◆ Updated preference for paying by credit card. Authorizes Chesapeake Pools to keep credit card information securely on file to run charges for any and all services.

This Box was intentionally left blank by Chesapeake Pools.

- Weekly services run a 15-week period. Any weekly's done after the 15th will be charged additionally depending on the package you choose*
- Up to one hour of vacuuming is included on all packages. The rate for additional vacuuming beyond one hour is \$110/hour.*
- Please have pool level filled to the top of the pool. Please remove excess debris and water from the cover before scheduled date of service or you will be charged additionally for removal at a rate of \$110/hour.*
- The removal of leaves or debris from the pool at opening, closing or at weekly visits, that requires more than 1 hour of vacuuming, will be billed additionally at a rate of \$110/hour.*
- Service calls are \$110/hour with a minimum of ½ hour.*
- Please call for available opening and closing dates.*
